

## ABOUT US

Techni Plast embarked on its journey in 2003, focusing on the manufacturing of plastic molded components. Established and helmed by Mr. Pankaj Jain, who has deep technical expertise in Tool and Product Design. The company began with just one plastic injection molding machine, producing 5 metric tons monthly.

Over the years, Techni Plast has achieved impressive growth, steadily increasing its production capacity year after year. To enhance customer satisfaction, the company established a state-of-the-art in-house Mould Manufacturing Facility in 2006, which has significantly expedited product development while ensuring the highest quality standards.

Today, Techni Plast proudly boasts a production capacity of 500 metric tons per month and operates from multiple facilities in the Delhi-NCR region. With a commitment to innovation and quality, the company continues to strengthen its position in the industry and meet the evolving needs of its customers.

Managing Director

# TECHNI PLAST

*Today*

Over the years, Techni Plast has experienced remarkable growth and advancement. Today, the company is characterized by:

## **A DEDICATED TEAM**

A skilled workforce of over 350 professionals committed to excellence.

## **VERSATILE MANUFACTURING CAPABILITIES**

The ability to produce plastic components ranging from ultra thin wall to extra thick wall, meeting diverse customer needs.

# Ensuring **Quality** at **TECHNI PLAST**

At Techni Plast, quality becomes our top priority. We strive to serve our customers in the best possible way and foster a long term relationship with them.

We have the most advanced machinery. Our technical staff provides excellent support to frontline workers to ensure that quality benchmarks are met for every piece produced.

With our team of consultants and experienced professionals, we have developed and maintained suitable quality checks at every stage.

# IN-HOUSE **DESIGN & DEVELOPMENT**

A state-of-the-art, fully equipped Mould Manufacturing Facility that drives rapid product development while maintaining the highest standards of quality, powered by advanced design and tooling technologies.

Techni Plast remains committed to innovation and excellence, delivering world-class solutions that meet the diverse needs of our global customers.
